PhenomUK & other research governance/policies at national level

Designing a Nationwide Phenotyping Infrastructure

Follow us on twitter

PhenomUK Research Infrastructure is a £2.4M Scoping Activity supported by the UKRI Infrastructure Fund. Launched in February 2023, this two-year project aims to define and pilot a nationwide distributed research infrastructure, with regional sites, which will enable new ways of working and a cultural shift in the UK's approach to plant phenomics.
